John William

DJ Host
Photographer
Videographer

John will create the perfect vibe for your event. Enabling your wedding day to flow perfectly with your guests immersed in your vision of the most perfect day of your life.

As well as his talent for people and music, he also has a creative flair and extensive experience behind a camera, with an extraordinary back-catalog of photography & videography.

Lilian Belli

Host
Compere
Comedian

Lilian is a professional comedian, event host, queen of the roast, and master of many un-monetizable skills!

When she's not performing her hit one-woman show to audiences around the country, she's busy entertaining guests at weddings, stag and hen dos, birthday parties and corporate events.

She's a natural-born performer and a real people person. You're bound to fall in love with her and her many hilarious characters.

Music For CELEBRATIONS

John William has a modern style of DJing which incorporates your music preferences with his beatmatching skills. Often quick-mixing when the energy is high, applying fun transitions between songs of varied genres, and also knowing when to wind-down the energy level for special moments, or when everyone looks like they need a break! John William reads the room constantly, and has a highly organised music library so he can always find the next track which fits the vibe perfectly.

Microphone use

Generally only using the mic when needed, John William aims to host with a fun, good mannered style that suits his audience, making announcements and minimal-moderate banter as required.

Requests Policy

Requests are always very welcome as it helps John William get to know your guests and their tastes, so there's something for everyone, whilst keeping the majority of feet tapping and the dancefloor rocking! If you have very specific tastes, we are happy to receive a request-list prior to the wedding, this can be referred to as a guide to help tailor the soundtrack set to yours and your guest's specific tastes.

DSLR Photopod

From £250

This high-quality photo solution is a fun and hugely popular addition to any event, not only does it take consistently high quality, well lit images, but also has built-in continuous video recording - capturing all those silly poses for your wedding video aswell!

Props such as hats, signs and silly sunglasses are included with a large hamper and hat stand. Images are delivered digitally after the wedding via your private client area on ForCelebrations.co.uk

- 📷 High Quality Photos
- 📷 Continuous video recording
- 📷 Hamper of props, hatstand etc
- 📷 Simple one-touch operation
- 📷 Adjustable wide angle lens
- 📷 Optimised for low-light conditions
- 📷 Digital photo delivery

phoneogram 📞

From £200

This is the original high-quality audio guestbook, it is much louder and boasts the advanced noise-suppression technology which is often absent with the many cheaper alternatives that are now flooding the wedding market.

As well as receiving a digital mix of all messages from the PhoneOgram, select messages can be incorporated into your wedding video soundtrack for an incredibly personalised, unique and tear jerking collaboration of captured memories.

Haze & Bubbles

£80

Haze & Bubbles – This amazing machine is an essential optional extra! Haze will transform ForCelebrations' lightshow effects from just projected spots of light to a dramatic array of moving beams. Creating an immersive clubland experience (use of haze will need to be approved by the venue, as although it's a lighter alternative to cheaper 'fog' machines, it can be known to set off modern sensitive smoke detection systems).

Bubbles are so much fun for kids and adults of all ages! They can be periodically blown over the dancefloor for special climactic moments, and of course your first dance! The Haze & Bubble machine can blow out empty bubbles or white cloudy bubbles filled with haze; an amazing effect which will wow your guests!

Extra Uplighting

From £125

Wash those bare walls with colour, or illuminate interesting architectural features such as pillars, alcoves etc.

8 uplighters are included in every wedding package as standard, which is perfect for a small venue. For larger venues additional uplighters can be hired. All are wireless, battery powered, and synchronised with the stage lighting. They can be set to a uniform colour scheme in the afternoon, then as the party starts, they join the show and create an incredible lightshow around the entire venue!

Glow Sticks

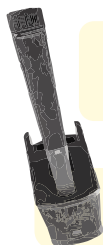

£60per50

Having these battery powered glow sticks at your wedding is certain to fill the dancefloor as soon as they appear. Your guests will love throwing shapes and posing with them!

Portable Speaker

We can provide an additional speaker to cover announcements and background music for your ceremony, outdoor area (battery powered) or another room in your venue – price varies depending on requirements

Videography

From £400

John William produces a short highlight video for almost all weddings using a combination of fixed and handheld cameras. We can also produce a full wedding video of your day using multiple fixed and handheld DSLR video cameras (10-20 minutes). Capturing footage of your ceremony, reception, speeches and all those special moments. Feature length (40+ minutes) including ceremony & speeches option also available.

Additional footage is captured from the Photopod camera and dancefloor cameras so there's a great variety of shots. PhoneOgram audio can also be used in your video soundtrack, which makes an incredibly personal and unique edit.

Licence-free music is used for your video soundtrack so it can be shared on social media. We can also create an edit with commercial music for private viewing only.

All videos are professionally edited with an authentic style to reflect the unique vibe of each individual wedding.

- ▶ 2-5 minute highlight reel (free with every wedding)
- handheld DSLR, stabilised gopro, dancefloor cam
- ▶ 10-20 minute wedding video - From £400

Master of Memories

From £1,850

      package For CELEBRATIONS

-  Wedding day planning & coordination (Emcee service)
-  Live DJ - including background music for your Reception and Wedding
-  Announcements and introductions from your PMCA host - Wireless microphone support for speeches
-  Dynamic Lighting - controlled stage lighting and uplighters configured to compliment your theme
-  DSLR Photopod - High quality digital images and video recording
-  PhoneOgram - High quality audio guestbook

The most comprehensive and inclusive package for your wedding. Together we'll create a stress-free wedding day and capture the memories so you can cherish them forever.

As part of this premium package, you will receive the best of John William's support and planning skills. Your planning meetings will produce the most detailed run sheet which will map all the finer details of your day. As well as the detailed run-sheet, we will also produce a shorter version detailing the general timings and contact details of all your suppliers, these can be handed to your suppliers for their reference on the day or shortly prior. That way everyone knows where they need to be and what is expected of them. And of course John William will be on hand to assist suppliers on the day (such as collecting guests together for the important group photographs) and dealing with any problems which may arise in a calm professional manner.

We understand that as much of an enjoyable experience your wedding day can be, so many special moments can be lost in the busy nature of the day. We facilitate and capture those moments so you can re-live your day for many years to come.
